

Optimize workplace resources with Joan Desk and Asset booking

Full parking spaces and occupied desks consume your workforce's time. Joan is here to change that. Employees can seamlessly reserve desks and parking spaces, check colleagues' attendance, and enhance collaboration, all on the day they come to the office.

Solution for flexibility, collaboration and efficiency

Designed for admins and users

Manage everything from the portal for a streamlined user experience. Joan is a solution that everyone can enjoy.

User-friendly booking options

Employees can choose between a mobile app or web-based interface, providing convenience and suiting individual preferences.

Insightful analytics

Insights into how and when a workspace is being used help to inform decisions on better office design and allocation.

Cost savings

By optimizing space usage, reducing administrative overhead, and even downsizing office space, Joan can contribute to significant cost savings.

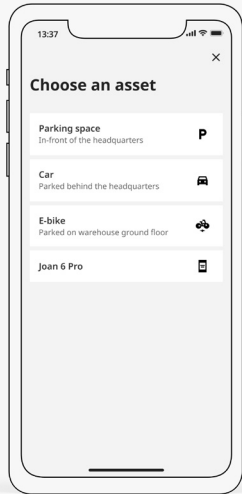

Scalability

Joan solutions can accommodate organizations of varying sizes, from small startups to large enterprises.

Employee satisfaction

The ability to reserve parking spaces, desks, and other assets reinforces productive hybrid working and improves employee satisfaction.

Stay focused and do your best work

Reserving desks and other assets

Easily check the availability and book your desired desk, parking and other workspace assets.

Easy check-in

Employees can effortlessly check in to the office through their browser or the Joan app.

Desk recommendation options

Joan analyzes usage patterns to personalize workspace recommendations for each employee.

Joan makes parking stress and desk confusion a thing of the past.
