

## NewTek IP Series Control Panels

NewTek IP Series Control Panels connect you to the systems, devices, software, and sources that form your interconnected production environment. Pairing the 4-Stripe Control Panel or 2-Stripe Control Panel with the Video Mix Engine across your network, you have consummate control of the most sophisticated of productions under the most demanding of circumstances.

Offering comprehensive functionality, precision control, and premium hardware mechanics that are intuitively arranged and ergonomically designed to ensure optimal live performance, NewTek IP Series Control Panels allow you to approach every production with absolute confidence.

### About the NewTek IP Series Ecosystem

The NewTek IP Series is a transformative video ecosystem for interconnected production. It transcends conventional workflows by leveraging innovative NDI® technology and modular architecture to form a scalable production network that allows legacy and contemporary technologies to coexist seamlessly, and video, audio, and data to be shared universally between systems and locations across a simplified infrastructure.
